Name: **Rupa** (Teach Week 1 – Week 6)

E-mail: rbandyop@cityu.edu.hk

Week 1 – Week 6 class on Tue - 15:30-18:20 (LT401)

Name : **Kenneth Lee** (Teach Week 7 – Week 12)

E-mail : kenkclee@cityu.edu.hk

Week 7 – Week 12 class on Tue - 15:00-17:50 (LT401)

Introduction

- Your Introduction
- Your Expectations

MSEC Programme Aims

- Produce a new generation of information technology (IT) professionals
- Competent in *evaluating* and *developing* electronic commerce systems and services within a *business context*

MSEC Programme Intended Learning Outcomes (PILOs)

1. Evaluate eCommerce **opportunities and models**;
2. Design eCommerce **services and systems**;
3. Apply **software tools and components** in support of eCommerce system development;
4. Work effectively as member of a project team in eCommerce system development;
5. Recognise the **regulatory, security, and ethical** issues of eCommerce.

EC5001 Course Intended Learning Outcomes (CLOs)

1. Describe and explore various business models and marketplace models for eCommerce;
2. Analyze and critique sample eCommerce cases;
3. Describe structure and functions of key technologies supporting eCommerce;
4. Describe basic regulatory, ethical and legal aspects in building a eCommerce system;
5. Identify emerging trends in eCommerce development.

EC5001—Weeks 1-6

- Purpose of Part I:
 1. Understand key concepts related to the information systems underlying EC (from a managerial/business perspective)
 2. Learn from real-world EC practices
 3. Apply the concepts learnt to real companies
- Focus: *PRACTICAL* rather than theoretical
- Interactive and participative approach

Class Activities

- Lecture
 - Discussion: Theoretical issues
 - E-business plan elements
- Tutorial (weeks 2-6)
 - Analyze companies using tools taught in class

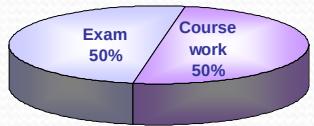

Class Schedule

Week	Lecture Topic
1	Course introduction Overview of EC
2	E-business opportunities and Strategy
3	B2B E-Commerce
4	B2C E-Commerce E-Commerce Security

6	Group Project Progress Presentation
13	Group Project Final Presentation

Materials

- Textbook
 - Turban E., King, D., Lee, J., Liang, T.P., and Turban, D.
Electronic Commerce: A Managerial and Social Networks Perspective.
- References
 - Other supplementary readings will also be made available electronically

Assessments

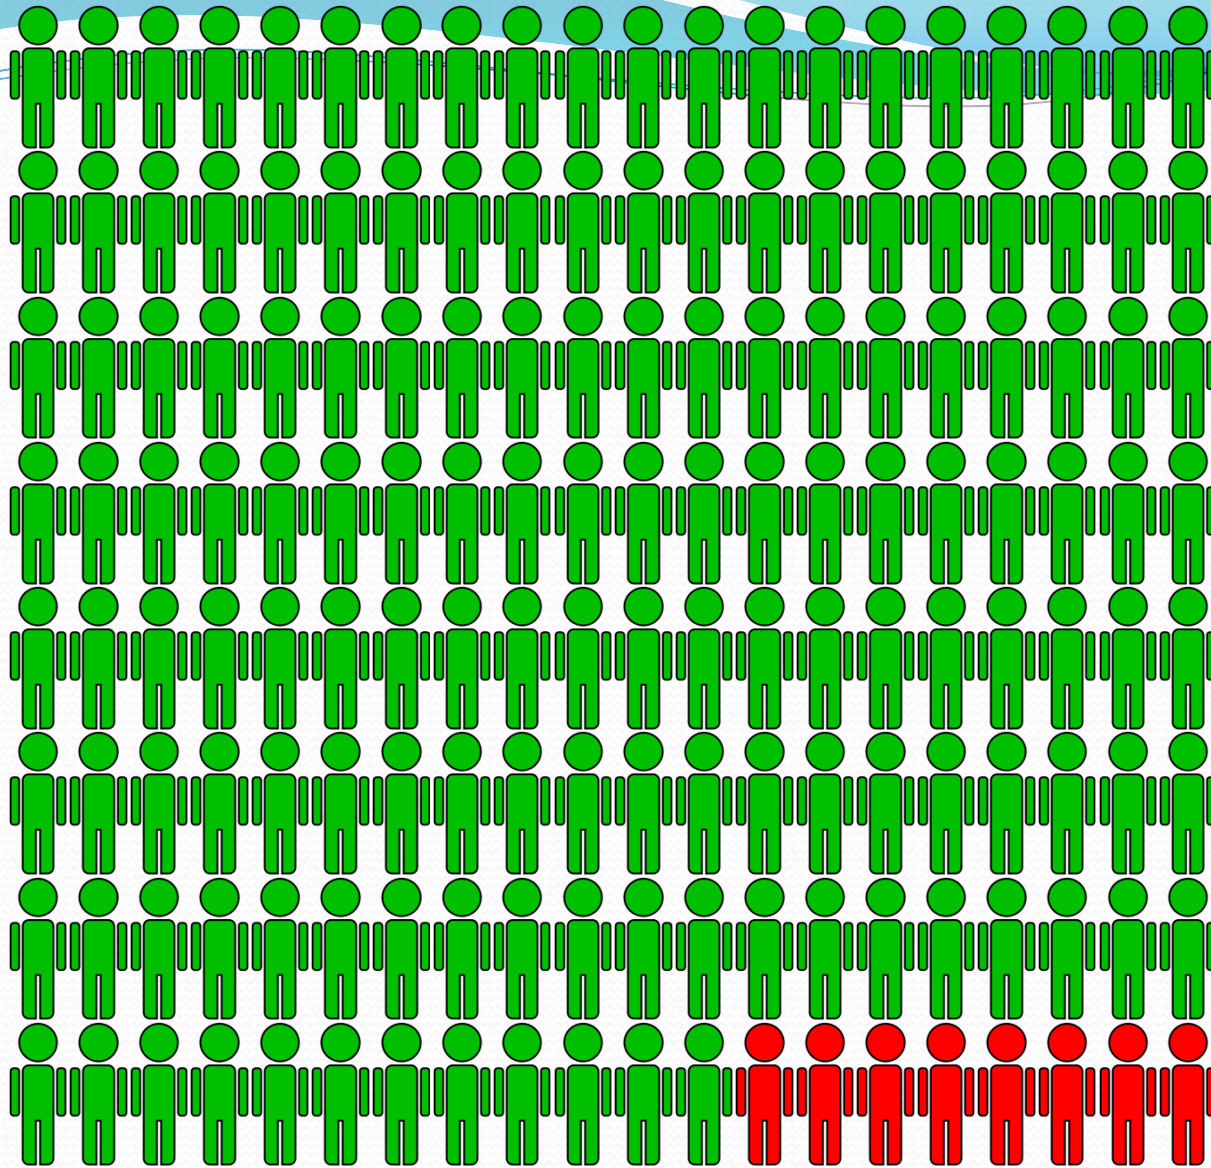

Must obtain at least 30%
of full exam mark to pass

- 1 individual assignment (15%)
 - Week 10
- Team project (25%)
 - Week 2-13
- Attendance (5%)
- Tutorial participation (5%)
 - Week 2 - 6

A note on academic (dis)honesty

- As a general principle, all work submitted must be **your own** work
- Our focus is on your **understanding** of the concepts learned and your **ability to apply** them
 - Copying and pasting does not demonstrate understanding or ability to apply
- Cheating, plagiarism, and collusion are serious offenses resulting in an F grade and disciplinary action

Must read:

http://www.cityu.edu.hk/provost/academic_honesty

Some ground rules

- Actively participate. Ask Questions, participate in discussions and In Class Presentations.
- Turn off your mobile phones and mute your mic.
- Refrain from chatting, being on social media, etc. during class time

Team Project—Objectives

1. Appreciate and apply fundamental concepts of e-commerce
2. Understand essential components required in an e-commerce proposal
3. Prepare for the EC5001 Project
4. Learn to work in short-term project teams

Team Project—In a Nutshell

- Propose an idea for adopting an emerging technology or starting a new online business
- Pitch your idea to business executives who are interested in your idea
 - What do you propose?
 - What does the current market look like?
 - How will you implement your idea?

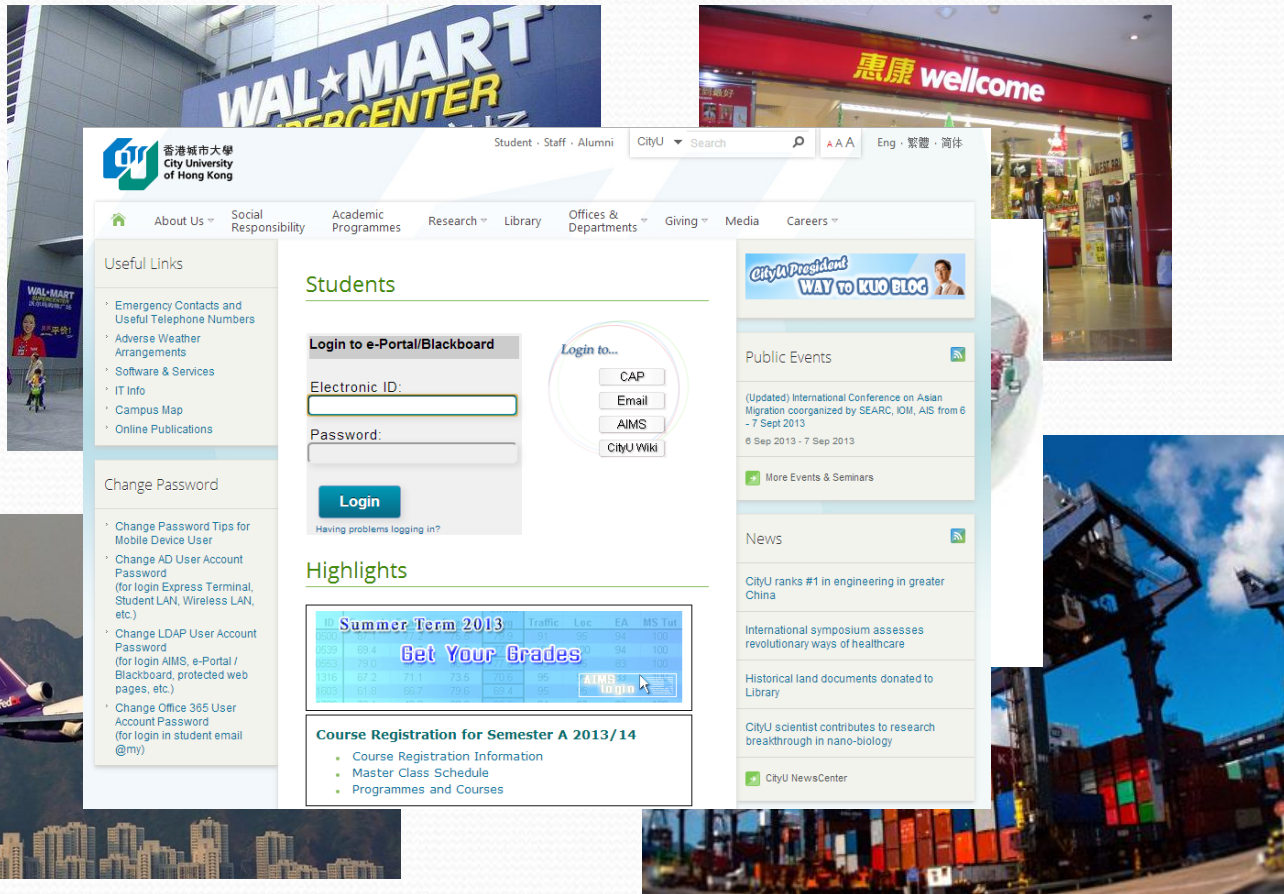

Team Project—Deliverables

- Team Formation – Week 2
 - Progress Presentation Slide Submission – Week 6
 - Final Presentation – Week 13
 - Final Report – Week 13
-
- Questions?

Why Does EC Matter?

- “[The Internet] was not designed for doing commerce...” (1994, Time Magazine).
- “You are not going to turn passive consumers into active trollers of the internet.” (1989, Stephen Weiswasser, Senior VP of ABC Television)

Information Systems are Ubiquitous

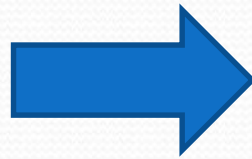

The Post-PC Era

Behavioral Changes

- Complete tasks wherever, whenever
- Complete tasks in chunks
- Work days don't have a clear beginning and end any more

Consumerization of IT
